ABOUT ME

Passionate web developer with a strong focus on front-end technologies, including HTML, CSS, and JavaScript. Eager to build creative projects that deliver excellent user experiences through responsive design and modern interfaces. Committed to continuously learning new technologies and applying them to solve real-world problems.

PROJECTS

AI-Powered CCTV Danger Detection

- Developed a real-time danger detection system using AI algorithms to analyze CCTV footage.
- Implemented computer vision techniques to identify potential threats and trigger alerts.
- Focused on creating a responsive and accurate system for enhanced security monitoring.

Landing Page

- Designed and built a modern, responsive landing page using HTML and CSS.
- Implemented interactive elements and a clean user interface with JavaScript.
- Ensured cross-browser compatibility and a seamless user experience.

Calculator

- Developed a functional web-based calculator with a user-friendly interface.
- Utilized HTML for structure, CSS for styling, and JavaScript for handling logic and calculations.
- Implemented core arithmetic operations and ensured accurate results.
